

Project Number: 2020-1-PL-KA202-082075

Each partner has to organise a one day multiplier event on the Psych.E.In project. The event can be a conference, a workshop, a focus group or any other event typology involving the foreseen number of participants and achieving the expected results.

The event will aim to mainstream the project results supporting opportunities for psychologists, psychotherapists and psychoanalysts and for their VET trainers in acquiring and developing key clinical competences in Psychological Early Intervention to support health and wellbeing in direct and indirect victims in humanitarian emergencies.

At the end of the dissemination events, each partner, should collect from the participants involved the:

- Evaluation questionnaires (PM4.D – End users’ Evaluation Questionnaires for Intellectual Outputs)

For each multiplier event, please provide the following information:
