

Toolkit 2 - Learning Unit 11 Post intervention

Activity 5 Competences that allow the team to solve problems

Training

Ask participants to recall their last intervention and to define their competence in seven areas on a scale of 1 to 7. In the discussion, ask for examples.

- Recognise the problem 1 2 3 4 5 6 7
- Analyse relevant information 1 2 3 4 5 6 7
- Provide different kinds of support 1 2 3 4 5 6 7
- Understand the mechanisms of the problem 1 2 3 4 5 6 7
- Cooperate with various services 1 2 3 4 5 6 7
- Develop possible solutions 1 2 3 4 5 6 7
- Motivate to apply some solutions 1 2 3 4 5 6 7

Ask if anyone notices other competences in themselves or in the team not mentioned on the list
