

## Toolkit 1 Leaning Unit 2

# Critical Thinking

## Post-Intervention

Developed by  
AKP Czech Republic

# Critical Thinking Introduction

Critical thinking is that mode of thinking - about any subject, content, or problem - in which the thinker improves the quality of his or her thinking by skillfully taking charge of the structures inherent in thinking and imposing intellectual standards upon them. In this toolkit you will see other options how to improve your critical thinking.

# L.U. 2 – Synopsis
